

Here's a friendly guide on «How to use ZOOM» on this computer

zoom

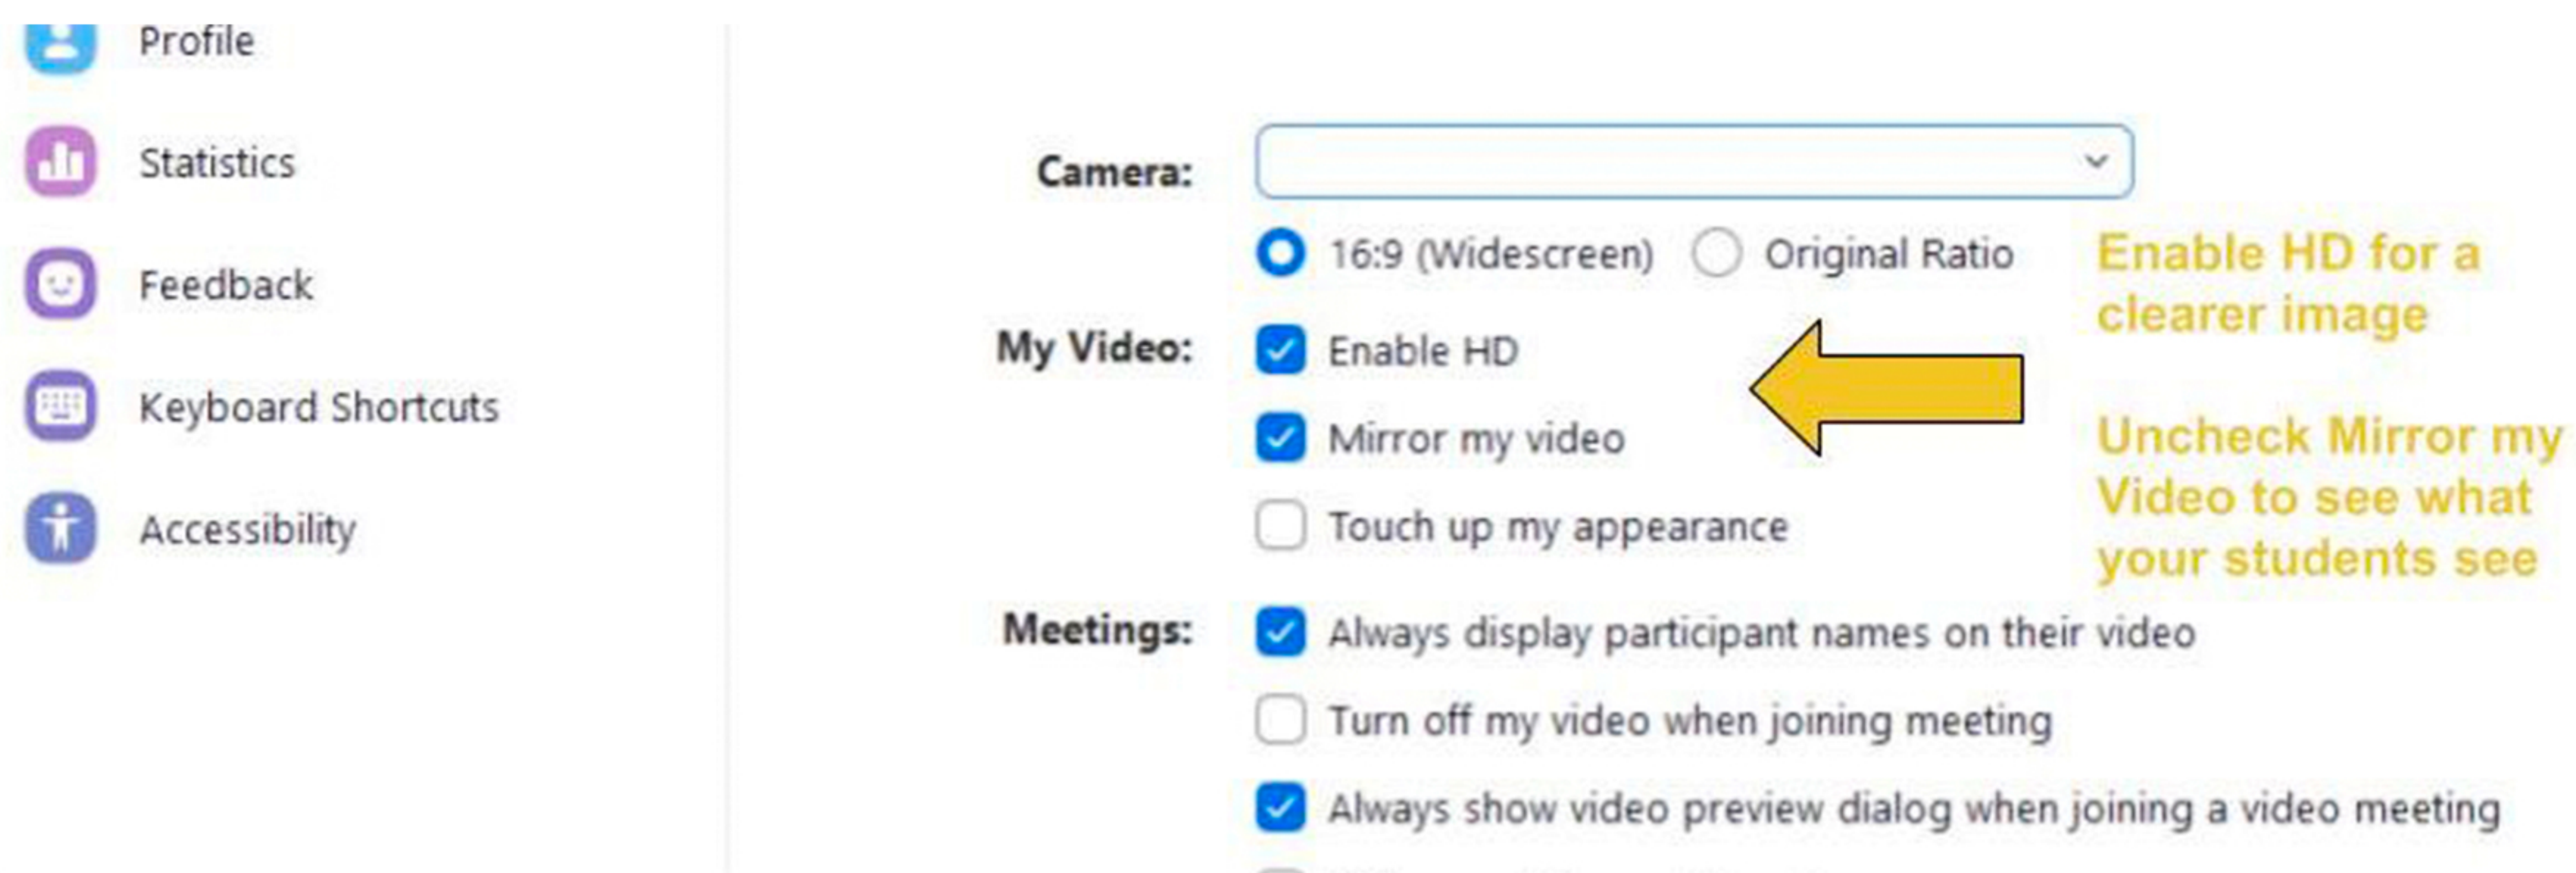

1. Make sure camera is detected and connected.

2. Make sure a microphone is selected. You can even test it!

3. Enable HD for clearer image. This can be done in Zoom settings.

Make sure the camera & microphone
are detected correctly. Look for:

Camera: AVer, AT-HDVS, Logi

Microphone: Echo Cancelling
